

GMEX

ROLLWAY LAUNCHES A NEW TYPE OF SPHERICAL ROLLER BEARING

Why GMEX?

Genuine Rollway is the smartest choice
Machined brass cage
EXcellence line

Product features:

- Improved precision, roundness and surface finish results in low friction and low power consumption
- Robust, single piece, brass cage
- Asymmetrical roller position
- Cage guided on the rollers
- Rings and rollers are manufactured in high grade ROL2 steel

Series:

22205 to 22220
22308 to 22316
21306 to 21320

Benefits:

- Excellent load ratings
- Long service life
- Smooth running
- Low noise and vibrations
- Low maintenance cost

Applications:

- Industrial heavy duty equipment
- Gearboxes
- Rolling machines
- Various applications where spherical roller bearings can be engaged

Will supersede in the future:

MB and CA series
